

## 2026 HRNSW LICENCE RENEWALS

### Requirements & General Notes

Dear Harness Racing Licensee,

Unless otherwise arranged, all NSW licensees are required to renew their licence for 2026 using their HarnessWeb account.

If you have not already applied for a HarnessWeb account, you are encouraged to do so at your earliest opportunity so as to ensure that your licence renewal is finalised before the commencement of the new licencing period (ie: 1 January 2026).

#### IMPORTANT NOTE (TRAINERS & TRAINER / DRIVERS)

If you are currently licenced as a Trainer, or a Trainer / Driver, and are intending to renew as a Trainer for 2026, you are required to confirm the registered **Property Identification Code (PIC)** for your nominated stabling address.

Trainers are reminded to update their stabling address (including the PIC) if it has changed since your licence was last renewed.

Note that Trainers and Trainer / Drivers that have a PIC that does not match their current physical stabling address will have their renewal set aside until updated PIC / stabling information has been made available.

#### IMPORTANT NOTE (DRIVERS, TRAINER/DRIVERS & STABLEHANDS, DRIVING)

Note that all licensees (excluding Stablehand, Non-Driving) that have not undertaken a baseline cognitive test, or have not been retested since 2023, will be required to take a test as a condition of their 2026 licence renewal.

Affected licensees will have ninety (90) days from the date on which their licence is renewed on the national database to book and complete the test.

Note that failure to undertake the test within the required time frame will result in the suspension of the licence until the test has been taken as required.

Further details regarding the test will be made available to individual licensees at the time that their licence is renewed for 2026.

#### IMPORTANT NOTES (STABLEHANDS)

Stablehands are required to record or update their Sponsoring Trainer when renewing their licence for 2026 using HarnessWeb.

If you are renewing your licence in the capacity of Stablehand, Driving, ensure that you download the Medical Assessment (by clicking the included HarnessWeb link) complete the assessment with your GP, then upload the completed assessment to HarnessWeb when finalising the renewal of your licence.

Stablehand, Non-Driving licence renewals do not require the licensee to undertake a Medical Assessment.

Stablehands that are considering an upgrade to their licence to that of a Driver, Trainer or Trainer / Driver in 2026 are encouraged to consider registering in the HRNSW Education & Welfare Program and booking a Cognitive Test (a mandatory requirement for new Drivers) in the two months leading up to your eligibility to apply for an upgrade (generally, this is six months after you have been issued with a Stablehand licence).

Should you wish to take advantage of accessing the training provided by HRNSW, it is recommended that you establish contact with Mr Maurice Logue (HRNSW Education & Welfare Manager) to discuss your future training requirements.

Mr Logue can be contacted on 02 9722 6623 or [cognitivetesting@hrnsw.com.au](mailto:cognitivetesting@hrnsw.com.au).

### GENERAL NOTES (ALL LICENSEES)

To assist you in ensuring that your licence renewal application is processed in an efficient and timely manner once it has been submitted to HRNSW, the HRNSW Licencing Committee request that you take the necessary time to review this insert so that you have a clear understanding of the requirements associated with the 2026 licence renewal process.

- 1) Licence renewals are to be submitted via your HarnessWeb account to HRNSW no later than close of business on Friday, 28 November 2025.

Due to public holidays, staff annual leave, etc, the review and subsequent processing of licence renewals received after the nominated date may be delayed, which will impact directly on a licensee's ability to nominate or otherwise participate in the sport beyond 31 December 2025 (when current licences expire).

- 2) All licensees renewing for 2026 online via HarnessWeb will be required to upload an updated head and shoulders only digital photograph (ie: a photograph taken on a smart phone or tablet) as part of the renewal process.
- 3) If you, as a renewing licensee, do not wish your contact information to be made available via the HarnessWeb Client Search function or included in the HRA Licence Holders Directory, please ensure that you clearly indicate **NO** when asked this question during the HarnessWeb licence renewal process.
- 4) All licence levels, **excluding renewals for Non-Driving Stablehands**, require you to undertake a mandatory Medical Assessment, which will be available for download within the HarnessWeb renewal facility (or by clicking on this link >>>> <https://www.hrnsw.com.au/industry-integrity/forms/participants--licences>).

If you are a Driver or Trainer / Driver aged 65 or over, you have been provided a more comprehensive Medical Assessment form (mailed out separately by the HRNSW Licencing Committee on **11 August 2025**) which encompasses the requirement to undertake an ECG Stress Test.

ECG Stress Tests are typically booked through your local General Practitioner or family doctor.

Please ensure that the ECG Stress Test is booked as early as possible to ensure that your renewal arrives for processing prior to the commencement of the new licensing year.

Note that late licence renewal submissions (ie: received on or after 1 January 2026) will only be considered by the HRNSW Licencing Committee if the accompanying Medical Assessment is less than three (3) calendar months old.

- 5) Please ensure that all areas of the HarnessWeb licence renewal application where you are required to (or have the option to) record or update information are fully, and correctly, completed;
- 6) Completed Medical Assessments can now be uploaded to HarnessWeb as part of the renewal process, or, alternatively, can continue to be emailed through to ([licensing@hrnsw.com.au](mailto:licensing@hrnsw.com.au)) or faxed (02 8580 5792) as soon as practical subsequent to the results being made available to you.

Ensure that the quality of the emailed or faxed Medical Assessment is sufficiently high enough to enable HRNSW to print a legible copy of the assessment and that the email or facsimile clearly identifies that the Medical Assessment / ECG Stress Test belongs to you.

- 7) It is the responsibility of all licence holders to inform the HRNSW Licencing Committee as soon as is practicable should your health status significantly change or if the status of your legal standing is adversely impacted upon by way of a conviction for a criminal offence, or if there are criminal or civil proceedings pending against you.

If your legal or health circumstances do change, you are required to notify HRNSW in writing ([licensing@hrnsw.com.au](mailto:licensing@hrnsw.com.au)).

Failure to provide such notification may result in the cancellation of your licence and/or other penalties as applicable under the Rules of Harness Racing.

- 8) For licensees submitting their renewal in paper form (where eligible to do so) note that HRNSW accepts licence renewals, and accompanying Medical Assessments, by facsimile (02 8580 5792) and email ([licensing@hrnsw.com.au](mailto:licensing@hrnsw.com.au)) however; it is emphasised that faxed or emailed renewals must be received in full and have been completed correctly (in accordance with the information contained within this insert) and must be clear and legible in their printed form.

Illegible, unclear or difficult to read renewals, or those not including all required information, will be returned to the licensee unprocessed.

- 9) Note that all licence renewal applications, irrespective of the licencing level, are reviewed individually by the HRNSW Licencing Committee prior to being renewed on the national database for 2026.

This licencing protocol adds to the overall time frame associated with the renewal process, so please keep this in mind when preparing your renewal, particularly if you are considering submitting your licence renewal (whether via HarnessWeb or in paper form) in close proximity to the licence expiry date for the current licensing period, being 31 December 2025.

- 10) Renewal applications that are submitted after the commencement of the new season (ie: received by HRNSW on or after 1 January 2026) may be subject to a late lodgement penalty fee of \$25.

Note that “out of season” renewal application submissions (ie: received by HRNSW on or after 1 April 2026) will be subject to additional scrutiny, which may require the licensee to provide additional documentation and/or information outside of the scope of requirements provided for within the context of this document prior to the renewal being presented for consideration by the HRNSW Licencing Committee.

- 11) If you choose not to renew your licence for 2026 by the due date (31 December 2025) but elect to renew at a later time, note that you will be required to pay the full annual fee for the licence renewal irrespective of how many months remain in the current licencing season.

Note also that late applications will be declined if the accompanying Medical Assessment is more than three (3) calendar months old, or if they are not accompanied by any mandatory requirements relative to 2026 as set out within the scope of this document.

- 12) Applications for upgrades to existing licences and new applications are not able (at this time) to be processed on HarnessWeb and are to be submitted directly to the HRNSW Licencing Committee.

Licence Upgrade Applications are available on our website ([Licence Upgrade Applications](#)) or by contacting Registrations & Licencing on (02) 9722 6600.

Please note that renewals of existing licences take precedence during the annual renewal process, thus it is requested that upgrade applications or new licence applications be deferred until mid-January 2026 or afterwards.

Note that it is anticipated that licensees will be able to submit upgrade applications, new applications and downgrade applications online via HarnessWeb towards the end of the first quarter of 2026.

Upgrade applications and new licence applications received between the last week of October 2025 and the second week of January 2026 may be deferred until the 2026 licence renewal process is complete;

- 13) If you have opened, closed or otherwise altered / amended any betting accounts during the 2025 licencing period, please ensure that you complete and submit a **Betting Account Declaration** form (Part C) reflecting any changes made to your betting activity profile.

Betting Account Declaration updates available via our website (per this link >>>>>>>>>> [Betting Account Declaration \(Update\)](#)) or by contacting Registrations & Licencing on (02) 9722 6600.

Note that HarnessWeb based licence renewals will have the option of updating their Betting Account Declaration as part of the renewal process, without the need to print out and submit a paper form.

- 14) Licence cards will be issued to renewing participants in the period between November 2025 and February 2026.

Applications received after this time will have their cards printed at the end of the calendar month in which they are received.

If you have submitted your renewal application within the appropriate timeframe (ie: before 31 December 2025) and have not received your card by the 28 February 2026 please email [licensing@hrnsw.com.au](mailto:licensing@hrnsw.com.au) or fax (02) 8580 5792 requesting a replacement card be provided to you;

- 15) Note that it is a mandatory requirement (for all licensees) to ensure that their licence card is made available for presentation to Stewards, Track Officials and other authorised individuals as and when required.

It is an additional requirement that licence cards be worn on your person (if so required for your particular licencing level) when attending a harness racing club.

A plastic licence card holder will be provided with your licence, with the clips being available from HRNSW Stewards on request;

- 16) HRNSW, as a service to the industry, collect annual subscription fees for United Harness Racing Association (UHRA), Harness Breeders NSW (HBNSW), NSW Standardbred Owners Association (NSWSOA) and the Trotters Association of NSW (TANSW) as part of the HRNSW licence renewal process to save participants from having to contact multiple organisations to renew their annual subscriptions.

However; please note that renewal applications received on or after 5 January 2026 that have indicated that they wish to renew their subscriptions with these organisations will need to do so independently as the last payment of collected subscriptions by HRNSW to these organisations will be made on or around this date.

**Important Note: your details, including postal address, contact numbers and/or email addresses may be made available to those organisations that you have indicated you wish to join or renew your membership with for the purposes of enabling those organisations to subsequently correspond with you regarding your membership. If you do not wish your details to be made available to these organisations by HRNSW, please do not use the renewal form to join or renew your membership, and instead contact the various organisations directly regarding your particular membership requirements.**

Thanking you for your attention

**HRNSW Licencing Committee**
