Note

- **Bet Back** means a wager which is made by the Approval Holder on the backers side of the wagering transaction in relation to NSW Harness Races (or contingencies related to NSW Harness Races):
 - (a) for the purpose of genuinely reducing or laying-off the Approval Holder's liability on a fixed-odds wager which has already been accepted by the Approval Holder and on which the Approval Holder has taken risk on the layers side of the wagering transaction;
 - (b) on the same contingency in relation to the NSW Harness Race as the Approval Holder has already accepted risk on the layers side of the wagering transaction referred to in paragraph (a) above; and
 - (c) in respect of which the amount which the Approval Holder stands to win does not exceed the amount that the Approval Holder stands to lose on the same contingency on the layers side of the wagering transaction referred to in paragraph (a) above.
- **Net Harness Turnover** means any amount greater than zero calculated in accordance with the formula:

HRT - BBC

Where:

HRT is the Approval Holder's NSW Harness Turnover during the periods identified in clause 4.1;

BBC is the amount of credit for Bet Backs to which the Approval Holder is entitled.

 - (h) the Approval Holder is aware that any person who is a Key Employee of the Approval Holder has a criminal record or has been subject to disciplinary action under any legislation, whether in New South Wales or elsewhere, or under the Rules of Racing;
 - (i) there is a material change in the events on which the Approval Holder conducts wagering or in the mechanisms which the Approval Holder uses to facilitate the receipt of wagers (for example, if during the period, the Approval Holder commences using the internet to facilitate the receipt of wagers, that would be a "Notifiable Event");
 - (j) the Approval Holder breaches or fails to comply with any of the conditions of the Race Field Publication Approval;
 - (k) the Approval Holder is aware that any other member of the Group publishes a NSW Harness Race Field in breach of section 33 of the Racing Administration Act;
 - (l) the Approval Holder is aware that any other member of the Group has breached or failed to comply with the conditions imposed on Approval(s) granted by HRNSW in accordance with section 33A of the Racing Administration Act to that member of the Group;
 - (m) the Approval Holder's Australian Wagering Licence is withdrawn; or
 - (n) any other change in circumstances relating to matters that were advised to HRNSW by the Approval Holder in its application.
 - (o) an investigation is commenced by a relevant Government Agency or Department and/or an adverse finding or ruling is made by any relevant Government Agency or Department
- **NSW Harness Turnover means** Turnover in respect of wagering transactions in relation to NSW Harness Races (or contingencies related to NSW Harness Races) where, without limiting the generality of this definition:
 - (a) the result of a single wagering transaction depends on the combined outcome of a number of events (for example: "doubles" bets); and
 - (b) a NSW Harness Race is at least one of the events on which the outcome of that wagering transaction depends, NSW Wagering Turnover will include the same proportion of the amount of the wagers made on the "backers" side of the wagering transaction as the number of NSW Harness Races on which the outcome of the wagering transaction depends bears to the total number of events on which the outcome of the wagering transaction depends, irrespective of the order in which those events are conducted or determined or the outcome of those events.

For example

- if a “doubles bet” requires the selection of the winner of a NSW Harness Race and the winner of a harness race conducted in Melbourne, then ½ of the amount of the wager on the “backers” side of the wagering transaction would be included as NSW Harness Turnover even if the race in Melbourne was held first and irrespective of the outcome of the Melbourne race;
- if a “doubles bet” requires the selection of the winner of two NSW Harness Races, then the whole amount of the wager on the “backers” side of the wagering transaction would be included as NSW Harness Turnover;
- if a “doubles bet” requires the selection of a winner of a race conducted at a NSW Harness Premium Race Meeting and the winner of a race at NSW Harness Standard Race Meeting, then one half (1/2) of the amount on the wager on the “backers” side of the wagering transaction would be included in the NSW Harness Premium Turnover even if the race at the Standard Race Meeting was held first and irrespective of the outcome of that race.
- if a bet was placed on the combined outcome of a NSW Harness Race, a rugby league match and a greyhound race, then 1/3 of the amount of the wager on the “backers” side of the wagering transaction would be included as NSW Harness Turnover; and
- by contrast, if a bet was placed on the outcome of a NSW Harness Race and the “layer” directed that any winnings on that bet be applied in a wager on another event (e.g. an “All-up” bet) so that each was a separate wagering transaction, then the entire amount of the wager on the “backers” side of the first wagering transaction would be included as NSW Harness Turnover and the second transaction would be assessed as an independent wagering transaction).

(c) the face value of any Free Bets is included.

- **Premium Race** means a NSW Harness Race offering prizemoney of \$30,000 or more.
- **Premium Race Meeting** means a race meeting at which at least one race offering prizemoney of \$30,000 or more is held. The list of such race meetings will be supplied by HRNSW.
- **Regulations** means the *Racing Administration Regulations 2012 (NSW)*;
- **Standard Race Meeting** means any race meeting other than a Premium Race Meeting.
- **Turnover means** in relation to a race or class of races, the total amount of wagers made on the “backers” side of wagering transactions made in connection with that race or class of races. For the avoidance of doubt, in the case of a person who holds an Australian Wagering Licence to operate a betting exchange, the “backers” side of wagering transactions made through the operation of that betting exchange is regarded as that person’s “Turnover” even if that person is not a party to the contract which constitutes the wagering transaction;
- **Totalizator Derived Odds** has the meaning given to that term in clause 16(3) of the Regulations

Report on Quarterly Returns and Final Certification Return

We have audited the financial information in the Harness Racing NSW race fields Returns (Quarterly Returns and the Final Certification Return) for the period ended 30 June 2026.

Directors' responsibility for the financial information

The directors and management of [name of company] are responsible for the preparation and lodgement of the Returns in accordance with the HRNSW Approval Conditions and have determined that the basis of preparation is appropriate to meet these requirements.

The directors' and managements' responsibility also includes such internal control as the directors determine necessary to enable the preparation of Returns that are free from material misstatement whether due to fraud or error, selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's responsibility

Our responsibility is to express an opinion on the Returns based on our audit. We conducted our audit in accordance with Australia Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the Returns are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Returns. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement in the Returns, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the Returns in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the directors and management, as well as evaluating the overall presentation of the Returns.

The Returns have been prepared for the purpose of determining [name of company] race fields fee payable to Harness Racing NSW for the use of NSW Harness Race Field Information.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Accounting Professional and Ethical Standards Board.

Auditor's Opinion

In our opinion, the financial information of [Name of Wagering Operator], as set out in the NSW Harness Race Field Returns for the period ended 30 June 2025 are presented fairly, in all material respects in accordance with the definitions of NSW Harness Turnover (Gross), Bet back credits allowed and Payments Made contained in the Race Fields Legislation and the Approval Notice.

Basis of Accounting and restriction on Distribution and Use

Without modifying our opinion, we draw attention to the fact that the Returns have been prepared for the sole purpose of assisting [Name of Operator] to meet the requirements of Harness Racing NSW and the Racing Administration Act 1998 (NSW). As a result, the financial information may not be suitable for any other purpose.
