Purpose

The purpose of the Handicapping Guidelines is to provide clarity in relation to the handicapping and field selection of races conducted in New South Wales. These Guidelines are to be read in conjunction with other HRNSW Racing Policies and relate to ALL meetings other than Metropolitan classification meetings.

Field Selection

Automatic Field Selection Points

- All races at Metropolitan meetings and races with a value of \$30,000 or more will NOT be selected by Automatic Field Selection Points.
- Fields for all other races will be selected in accordance with the Automatic Field Selection Points (field selection points)
- Fields will be selected in descending points score order (from the top down)
- Horses earn field selection points in accordance with the following table

Field Selection Points

Placing	1	2	3	4	5	6	7	8	9	10+
Points	10	8	7	6	5	4	3	2	1	0

- A bonus of four (4) points is added to a horse's Field Selection Points for all Metro races
- A horse will be awarded six (6) field selection points if it is balloted. These ballot points will be treated as a points scoring performance and will replace such horse's current lowest point scoring performance of their last five starts. This will not be applicable under the following scenarios:
 - *A manual field selection race*
 - *When a horse has an unfulfilled engagement*
 - *A race selected in ascending points score order*
 - *When a horse is a late nomination*
 - *When a horse is deemed ineligible at acceptance time*
 - *When a horse is balloted from a race having gained a start in another race on the same day*
 - *When a horse is balloted from a race having already been balloted from another race on the same day*
 - *If the horse is declared an emergency but is scratched prior to declaration of final scratching's*
 - *If the race is declared a 'no-race' or is abandoned*
- These points will be credited to a horse's field selection points total after the running of the race meeting from which the horse has been balloted
- When a horse qualifies to race it will be initially allotted a point's score of 24 points (4 gifted starts x 6 points). The points score of a newly qualified horse will then be calculated in the same manner as for a horse with a racing history, that is, by considering the horse's last five points scoring performances and discarding the least points scoring performance so that the total of the remaining four points scoring performance becomes the points score used in the Automatic Field Selection
- In the event of two or more horses being equal with the same points score, a countback will determine which horse gains a start, with preference given to the horse which earned the highest points at its last start. If both/all horses earned the same points, this procedure will be repeated through each previous start. If both/all horses cannot be separated, a random ballot will be determine which horse/s gain a start.

- For any field selected under the Automatic Field Selection System, with more than one horse being on 24 points, unraced horses will take preference over horses also on 24 points who have had one or more race starts.
- Horses without an engagement will be selected in a field in preference to horses with an unfulfilled engagement other than races which carry prizemoney which exceeds \$20,000 and races conducted at Metropolitan classification meetings.

All Meetings

Ten (10) Starters will be drawn into every mobile start race. Twelve (12) Starters will be drawn into mobile start races worth \$30,000 or more, at tracks of 900m+

Emergencies

Emergencies will only be drawn into races that are Carnival of Cups Feature races, Waratah Heats, races of \$14,500 or more or any other race as determined by HRNSW.

Splitting Of Races

Owner, Trainer and Driver multiples are not considered when splitting races.

- Maiden Races will be divided by Sex and then National Rating (SEX/NR)
- All races up to a National Rating of 55 will be split on lifetime wins (LTW), and then dollars won in the last five starts (\$L5) if they cannot be split
- Races with a National Rating above 55 will be split by National Ratings

Concessions

Driver Concessions

Driver Concessions can be used in all races, except;

- a) 2YO races
 - b) 3YO races
 - c) Where it is stipulated in the race conditions that they do not apply
- A Concession **MUST** be made when nominating the horse in HarnessWeb

If you assign a Concession Driver and the Concession NOT claimed dot is highlighted **then a Concession will not be Claimed.**

Claiming a concession

To Claim a Concession with an assigned driver simply assign your Driver and Select Concession Claimed and your Concession will be Claimed based on the Number of Points your Driver can Claim.

To Claim a Concession without an assigned driver Select Concession Claimed and then select the number of Points you wish to Claim.

Figure 1

The screenshot shows a web interface for claiming a concession. At the top is a 'Search Driver' text input field. Below it is a 'Driver Details' section, which is currently empty. Underneath, there are two radio button options for 'Concession': 'Concession NOT claimed' (unselected) and 'Concession claimed' (selected). To the right of these options is a 'Concession Claim' dropdown menu. The dropdown menu is open, showing three options: a blue bar with '--', the number '3', and the number '5'. To the right of the dropdown, text indicates that '3' corresponds to '101 to 250 Claimed Wins' and '5' corresponds to '0 to 100 Claimed Wins'.

Driver Concessions in NSW are based on the following table:

Term 7 years from attainment of an initial B Grade Drivers Licence.

Races ≤\$14,999

Table 1

Ratings Deduction	Driver
5	0-100 total wins
3	101-250 total wins

Mares Concessions

A mare receives a Ratings deduction of five (5) points in all races, except;

- a) 2YO races
- b) 3YO races
- c) Where it is stipulated in the race conditions that they do not apply

A mare's concession is automatic in all races where a claim can be applied.

A mare can utilise a double claim in all eligible races by having a Concession Driver engaged.

Three Year Olds Concessions

Three year olds will be able to claim a deduction of eight (8) National Rating Points when racing in ALL open age events.

There is no floor for the 3yo Concession, and it may be claimed down to the minimum rating of 30 National Rating Points

A 3yo concession can be claimed in conjunction with a Driver or Mares claim but not both. Therefore the maximum concession that can be claimed is 13 rating points.

A 3yo concession is automatic in all races where a claim can be applied.

Two Year Olds Concessions

Two year olds will be able to claim a total of sixteen (16) National Rating Points when racing in ALL open age events.

There is no floor for the 2yo Concession, and it may be claimed down to the minimum rating of 30 National Rating Points
